A BILL

To measure the progress of recovery and development efforts in Haiti following the earthquake of January 12, 2010, and for other purposes.

- 1 *Be it enacted by the Senate and House of Representa-*
- 2 *tives of the United States of America in Congress assembled,*
- 3 **SECTION 1. SHORT TITLE.**
- 4 *This Act may be cited as the “Assessing Progress in*
- 5 *Haiti Act”.*

1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) According to the Government of Haiti, more
4 than 316,000 people died as a result of the earth-
5 quake that struck 15 miles southwest of Port-au-
6 Prince on January 12, 2010, including 103 citizens
7 of the United States and more than 100 United Na-
8 tions personnel.

9 (2) According to the United Nations and the
10 International Organization for Migration, an esti-
11 mated 3,000,000 people were directly affected by the
12 disaster, and more than 2,100,000 people were dis-
13 placed from their homes.

14 (3) The Post Disaster Needs Assessment con-
15 ducted by the Government of Haiti, the United Na-
16 tions, the World Bank, the Inter-American Develop-
17 ment Bank, and others estimated that damage and
18 economic losses totaled \$7,804,000,000, approxi-
19 mately 120 percent of Haiti's gross domestic prod-
20 uct in 2009.

21 (4) The initial emergency response of the men
22 and women of the United States Government, led by
23 the United States Agency for International Develop-
24 ment and the United States Southern Command, as
25 well as of cities, towns, individuals, businesses, and

1 philanthropic organizations across the United States,
2 was swift and resolute.

3 (5) According to the Government of Haiti, nu-
4 merous multilateral agencies such as the United Na-
5 tions, and international nongovernmental organiza-
6 tions, Haiti faces an ongoing food crisis as a result
7 of the earthquake and subsequent damage caused by
8 tropical storms and hurricanes, as well as long-term
9 neglect of the agriculture sector.

10 (6) According to the International Organization
11 for Migration, approximately 320,000 people remain
12 in spontaneous and organized camps in Haiti, and
13 reports by the General Accountability Office, the In-
14 spector General for the United States Agency for
15 International Development, and civil society organi-
16 zations indicate that the pace of recovery and devel-
17 opment has lagged significantly behind the emer-
18 gency relief phase.

19 (7) On October 21, 2010, an outbreak of chol-
20 era was detected and according to the Haitian Min-
21 istry of Public Health and Population, as of Feb-
22 ruary 17, 2013, more than 8,000 people had died
23 from cholera and more than 647,500 had been in-
24 fected with the disease.

1 (8) The United Nations Office of the Special
2 Envoy for Haiti estimates that, including donor
3 pledges and other support, approximately
4 \$6,400,000,000 has been disbursed, with an addi-
5 tional amount of \$3,800,000,000 committed, to as-
6 sist in Haiti's recovery and development.

7 (9) The United States Government has appro-
8 priated approximately \$3,600,000,000 for relief, re-
9 covery, and development in Haiti since the earth-
10 quake, of which \$2,600,000,000 had been disbursed
11 as of March 2013. The United States Government
12 has also provided more than \$95,000,000 in aid to
13 combat the cholera epidemic and care for the vic-
14 tims.

15 (10) Significant challenges remain in Haiti,
16 which will require continued recovery and develop-
17 ment aid from the international community for the
18 foreseeable future.

19 (11) The Haitian diaspora has also played an
20 essential role in Haiti's reconstruction, and the
21 United States Government should take steps to in-
22 crease outreach and encourage participation by Hai-
23 tian Americans in recovery and development activi-
24 ties in Haiti.

3 **SECTION 1. SHORT TITLE.**

4 *This Act may be cited as the “Assessing Progress in
5 Haiti Act of 2014”.*

6 **SEC. 2. FINDINGS.**

7 *Congress makes the following findings:*

8 *(1) On January 12, 2010, a massive earthquake
9 struck near the Haitian capital city of Port-au-
10 Prince, leaving an estimated 220,000 people dead, in-
11 cluding 103 United States citizens, 101 United Na-
12 tions personnel, and nearly 18 percent of the nation’s
13 civil service, as well as 300,000 injured, 115,000
14 homes destroyed, and 1,500,000 people displaced.*

15 *(2) According to the Post Disaster Needs Assess-
16 ment conducted by the Government of Haiti, with
17 technical assistance from the United Nations, the
18 World Bank, the Inter-American Development Bank,
19 the Economic Commission for Latin America and the
20 Caribbean, and the European Commission, an esti-
21 mated 15 percent of the population was directly af-
22 fected by the disaster and related damages and eco-
23 nomic losses totaled \$7,804,000,000.*

24 *(3) Even before the earthquake, Haiti had some
25 of the lowest socioeconomic indicators and the second*

1 *highest rate of income disparity in the world, condi-*
2 *tions that have further complicated post-earthquake*
3 *recovery efforts and, according to the World Bank,*
4 *have significantly reduced the prospects of addressing*
5 *poverty reduction through economic growth.*

6 (4) *According to the World Food Programme,*
7 *more than 6,700,000 people in Haiti (out of a popu-*
8 *lation of about 10,000,000) are considered food inse-*
9 *cure.*

10 (5) *In October 2010, an unprecedented outbreak*
11 *of cholera in Haiti resulted in over 500,000 reported*
12 *cases and over 8,000 deaths to date, further straining*
13 *the capacity of Haiti's public health sector and in-*
14 *creasing the urgency of resettlement and water, sani-*
15 *tation, and hygiene (WASH) efforts.*

16 (6) *The international community, led by the*
17 *United States and the United Nations, mounted an*
18 *unprecedented humanitarian response in Haiti, with*
19 *donors pledging approximately \$10,400,000,000 for*
20 *humanitarian relief and recovery efforts, including*
21 *debt relief, supplemented by \$3,100,000,000 in private*
22 *charitable contributions, of which approximately*
23 *\$6,400,000,000 has been disbursed and an additional*
24 *\$3,800,000,000 has been committed as of September*
25 *30, 2013.*

1 (7) *The emergency response of the men and
2 women of the United States Government, led by the
3 United States Agency for International Development
4 (USAID) and the United States Southern Command,
5 as well as of cities, towns, individuals, businesses, and
6 philanthropic organizations across the United States,
7 was particularly swift and resolute.*

8 (8) *Since 2010, a total of \$1,300,000,000 in
9 United States assistance has been allocated for hu-
10 manitarian relief and \$2,300,000,000 has been allo-
11 cated for recovery, reconstruction, and development
12 assistance in Haiti, including \$1,140,000,000 in
13 emergency appropriations and \$95,000,000 that has
14 been obligated specifically to respond to the cholera
15 epidemic.*

16 (9) *Of the \$3,600,000,000 in United States as-
17 sistance allocated for Haiti, \$651,000,000 was appor-
18 tioned to USAID to support an ambitious recovery
19 plan, including the construction of a power plant to
20 provide electricity for the new Caracol Industrial
21 Park (CIP) in northern Haiti, a new port near the
22 CIP, and permanent housing in new settlements in
23 the Port-au-Prince, St-Marc, and Cap-Haïtien areas.*

24 (10) *According to a recent report of the Govern-
25 ment Accountability Office, as of June 30, 2013,*

1 *USAID had disbursed 31 percent of its reconstruction*
2 *funds in Haiti, the port project was 2 years behind*
3 *schedule and USAID funding will be insufficient to*
4 *cover a majority of the projected costs, the housing*
5 *project has been reduced by 80 percent, and the sus-*
6 *tainability of the power plant, the port, and the hous-*
7 *ing projects were all at risk.*

8 *(11) GAO further found that Congress has not*
9 *been provided with sufficient information to ensure*
10 *that it is able to conduct effective oversight at a time*
11 *when most funding remains to be disbursed, and spe-*
12 *cifically recommends that a periodic reporting mechani-*
13 *smism be instituted to fill this information gap.*

14 *(12) Donors have encountered significant chal-*
15 *lenges in implementing recovery programs, and near-*
16 *ly 4 years after the earthquake, an estimated 171,974*
17 *people remain displaced in camps, unemployment re-*
18 *mains high, corruption is rampant, land rights re-*
19 *main elusive, allegations of wage violations are wide-*
20 *spread, the business climate is unfavorable, and gov-*
21 *ernment capacity remains weak.*

22 *(13) For Haiti to achieve stability and long term*
23 *economic growth, donor assistance will have to be*
24 *carefully coordinated with a commitment by the Gov-*

1 ernment of Haiti to transparency, a market economy,
2 rule of law, and democracy.

3 (14) The legal environment in Haiti remains a
4 challenge to achieving the goals supported by the
5 international community.

6 **SEC. 3. STATEMENT OF POLICY.**

7 It is the policy of the United States to support the sus-
8 tainable rebuilding and development of Haiti in a manner
9 that—

10 (1) promotes efforts that are led by and support
11 the people and Government of Haiti at all levels so
12 that Haitians lead the course of reconstruction and
13 development of Haiti;

14 (2) builds the long term capacity of the Govern-

4 elections in accordance with democratic principles
5 and the Haitian Constitution.

7 *It is the sense of Congress that transparency, account-*
8 *ability, democracy, and good governance are integral fac-*
9 *tors in any congressional decision regarding United States*
10 *assistance, including assistance to Haiti.*
